The North Carolina Black Alliance (NCBA) is working toward state-level systemic change by strengthening the network of elected officials representing communities of color throughout the state and collaborating with progressive, grassroots networks on intersecting issues. These issues range from voting rights, gerrymandering, criminal justice reform, health and wellness, economic development to education. The Alliance is an intergovernmental network of African American legislators, county commissioners, school board members, and municipal elected officials centered by a commitment to ambitiously address broad issues of inequality and fairness.

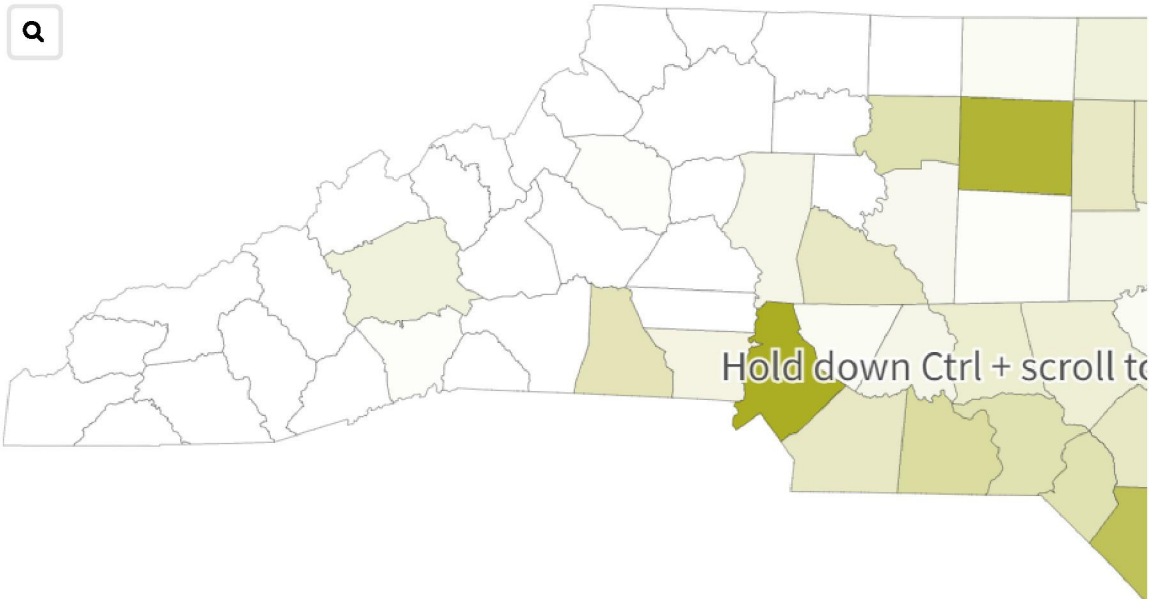

NCBA collaborates with strategic partners to advance the work of those organizations and to enhance intentional collaboration with black constituencies.
